Beautiful Country House in Tortosa with Stunning Views of Tortosa and the Dels Ports Mountains

If you are dreaming of a home in a peaceful, natural setting with impressive views of Tortosa and the Dels Ports mountains, while still appreciating close access to urban infrastructure, this chalet represents a rare and exceptional opportunity.

This typical country house of the region was completely rebuilt one year ago using entirely new construction components.

There was also an irrigation tank which has been converted into a tiled swimming pool with steps and its own spacious terrace.

On the ground floor of the house, you will find the kitchen-dining area on the left, the bathroom straight ahead, and a bedroom on the right.

On the first floor, directly ahead, there is a small room with limited height where the electric water heater is installed. In front of it, to the right, is the second bedroom, which is large enough for a double bed.

All lights are integrated into the plasterboard ceiling and are equipped with energy-saving LED lighting.

All windows are aluminum with double glazing.

Access to the property is via a paved road, and the entrance is secured with a gate.

The house is connected to the public electricity and water supply.

The spacious plot features attractive terraces surrounded by olive trees. The secure water supply encourages the creation of a beautiful private garden.

Contact us today for more information or to arrange a private viewing.
